Education

Polytechnic University of the Philippines

Bachelor of Science in Information Technology

Present

- Focus areas: Web Development, Software Engineering, Database Systems, and Cybersecurity

Polytechnic University of the Philippines – Senior High School

Information, Communications, and Technology (TVL-ICT) Strand

June 2022

- Graduated with High Honors & Top 1 Strand Rank

Experience

Software Developer Intern

[Repository](#)

Public Employment Service Office (PESO)

Feb 2026 – May 2026

- Developed **ASCEND**, an internal employment management platform using **JavaScript**, **MySQL**, **PHP**, and **Tailwind CSS** to centralize employment program records.
- Engineered **RESTful APIs** and optimized database operations for program tracking, secure access and record management to employment data.
- Collaborated with cross-functional team members to deliver scalable backend features that streamlined administrative workflows and simplified program monitoring for PESO personnel.

Software Developer

[Repository](#)

Public Employment Service Office (PESO) — Short-Term Contract

June 2026 – Aug 2026

- Led the development of **REFER**, a full-stack recruitment and job referral platform using **React**, **TypeScript**, **Node.js/Express**, and **MySQL**.
- Developed job matching, referral, job posting, and applicant management workflows across jobseeker, employer, and administrator roles.
- Implemented **JWT**-based authentication and **role-based** authorization to secure access to sensitive health and administrative data.

Project

NutriAksyon: Feeding Program Web App

[Repository](#) | [Live Demo](#)

Project Manager & Lead Developer

Oct 2025 – Jan 2026

- Built a full-stack nutrition monitoring platform using **React** and **Microsoft Azure** to automate child nutrition tracking and feeding program workflows.
- Implemented **JWT**-based authentication and **role-based** authorization to secure access to sensitive health and administrative data.
- Stored centralized nutrition records and workflows through **Microsoft SQL Server** on **Azure**.

Technical Expertise

- **Languages:** C#, JavaScript, TypeScript, PHP, Python, Java, C++, C, COBOL
- **Web Technologies & Frameworks:** React, .NET, Tailwind CSS, Node.js, Express.js, JWT
- **Databases & Cloud:** MySQL, MSSQL, PostgreSQL, Supabase, Firebase, Microsoft Azure
- **Tools & Deployment:** Figma, Git, GitHub, Vercel, Netlify, Render, Vite, Postman, Swagger
- **Software & IDEs:** Visual Studio, VS Code, Eclipse, NetBeans, PyCharm
